Its a great opportunity for all entrepreneurs and working professionals in the field of auto detailing. For those who doesn't know anything about detailing will get almost wide knowledge from our Experienced mentor Mr. Shameemka

His more than 10 years experience in this field is giving us many valuable tips and techniques which he learned from his mistakes and experience as he is the Pioneer in Car Detailing department. To have a theoretical as well as practical experience , DTK is providing such an awesome training session which no one else can provide in entire Kerala....

Thank You ... Team DTK

★★★★★ 5 months ago

it was an amazing experience to get trained from DTK . The team leader Mr Shameem is brilliant and extraordinary hardworking man. I am able to start a new car detailing centre only because if their training and other post training support.

Also DTK PROVIDES QUALITY MATERIALS FOR DETAILING , ceramic coating and car washing Best wishes to Shameem and his team

★★★★★ a month ago

It's fulfil the expectations..the course was really awesome...before enter into detailing academy,i also have some fear in my mind,if it's right or wrong? How we trained,if our expectations fulfil, if it's worthy for the money? All questions came into my mind...after i attended,i realised some of it.... they have a passion to train you...if you have a doubt? They have eagerly waiting to clear your doubts...i think they are very more passionate about what they do..at the end of the class,they are very clear about you,if you learned or not? They never leave you without any doubts..and the best another one is they are there in backend for any support if we struggles... In my point of view,its fulfil my expectations and i am happy that i have a best trainers.

★★★★★ a day ago

It was a very good experience at detailing academy. I was zero in detailing but now I'm like a pro after completing the training session. All our doubts will be cleared. Hands on training is really helpful . Faculties are friendly . Once you completely the detailing training you can start your own detailing business. And also you will be getting a beautiful certificate. Please visit detailing academy , if you want to become a professional detailer.

★★★★★ a week ago **NEW**

I attended Window Tinting workshop. The two days training of window tinting was good. Tinting process is not as easy as it looks from the outside . The small details in the techniques are the keys and I guess our trainer got it conveyed well with the practical session. The course gives us great learning lessons which you won't get it with two days from anywhere else. It's a valuable course for people like me. 😊

I recently attended a car washing and detailing course at the Detailing Academy, and I must say, I was blown away by the quality of the training I received. The course was a perfect mix of theory and practical sessions, which gave me a deep understanding of the car detailing process.

The instructors at the Detailing Academy were extremely knowledgeable and experienced, and they provided us with valuable insights into the industry. The theory sessions were comprehensive and covered everything from the basics of car washing and detailing to advanced techniques for achieving a perfect finish.

The practical sessions were equally amazing. We were provided with all the necessary tools and equipment, and we got hands-on experience in washing, waxing, and polishing a car. The instructors were patient and took the time to walk us through each step of the process, ensuring that we understood everything.

Overall, the course was a fantastic experience, and I feel confident in my ability to provide excellent car detailing services. I would highly recommend the Detailing Academy to anyone looking to learn about car washing and detailing, whether you're a beginner or an experienced professional.

Detailing Academy is an absolute game-changer in the world of car detailing, and my training experience there was nothing short of transformative. From the very outset, it's abundantly clear that this establishment is fueled by an unwavering passion for automobiles and the art of making them shine.

Under the masterful guidance of owner Shameem and his exceptional team, I was immersed in a training program that left no stone unturned. Every minute detail, from the tires to the body, and even the most intricate corners of the interior, was meticulously covered. The emphasis on unwavering quality was not just a tagline but a way of life for everyone involved.

Detailing Academy's distinction lies not just in their work, but in the profound pride they take in it. This pride is vividly evident in the referrals that pour in from delighted customers, a true testament to the caliber of their craftsmanship and dedication.

A standing ovation is in order for Shameem, whose training approach goes beyond the ordinary. His passion is infectious, his knowledge unparalleled, and his commitment to his students' success is awe-inspiring. Under his tutelage, I not only acquired skills but also imbibed a mindset of excellence that will stay with me throughout my journey in the world of car detailing.
